

WATER FOR WELLNESS

WS 9000

- LG Parts and Components
- Innovative Design & Technology
- All Stainless Steel Reservoirs
- Balances pH Levels in the Water
- Sanitization and Immune Detox
- Nutrient Boost
- Speedy Water Replenishment
- Clean Fresh Taste

**Be Smart!
Be Healthy!
Go Green!**

*“The number
one reason for
early fatigue is
dehydration, not
a lack of fuel.”*

— Dr. Julie Burns

The Nine Stage Water Purification Process

1 SEDIMENT FILTER

Removes particles such as dirt, silt, rust and pipe residue

2 PRE-CARBON FILTER

Removes chlorine, chemicals and pesticides

3^{A/B} RO/UF MEMBRANE

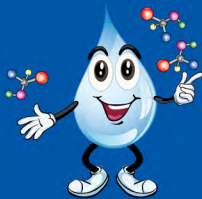

Removes all metals, solids, arsenic, etc. RO filter size: .0001 micron. UF filter size: .01 micron

4 BIO-SURE PLUS FILTER

A. Eliminate Free Radicals & Clumping

Special minerals are added to neutralize the damaged molecules.

B. Restores & Adds Minerals

More than 20 minerals are utilized that are known to improve an array of health concerns.

C. Enhance Alkalinity & Balance pH

Water is enhanced with minerals to increase alkalinity and balance pH.

D. Purify & Sanitize

There are 450 forms of virus controlled through one of the strongest antibacterial agents.

5^{A/B} TCR/FINAL POLISHING

Final polish for fresh pure taste

WS 9000

Height: 50.3" / Width: 14.2" / Depth: 15.5"

Colors: Black and White

Cold Water Capacity: 2.1 Gallons

Hot Water Capacity: 1.3 Gallons

Problems with Bottled Water

- High Costs
- Spillage
- Storage Issues
- Lifting 42lb. Bottles
- Handling & Bacteria Issues
- Excessive Accounting Issues
- Delivery Inconveniences & Security Issues
